

Space Mission

Who was your astronaut?

What is one question you would like to ask that person if it were possible?

What did you first observe through the viewers? How did the blue cellophane affect what you saw?

What did the cellophane represent? _____

Did the orbiting mission reveal anything surprising on the “back sides” of the planets?

Were there any indications of life on the planets? What were the clues?

Where would you like to see a mission travel? What kind of mission? Why?
